

Textiles Unlimited, Inc.

Textile Sourcing & Inspection House

「ABOUT US」

Since its inception in 1992, Textiles Unlimited came over a long way to build a reputation as one of the leading textile sourcing / supply chain management service providers. Starting from a humble beginning, Textiles Unlimited is now operating with head office in Pakistan and counterpart office in Turkey and UAE.

Leveraging textile design, manufacturing, and our global infrastructure, we serve customers in the retail, healthcare, hospitality, interiors, and consumer markets worldwide. With a team of dedicated professionals operating and striving hard to serve customers in an organized manner.

We provide a complete product range comprising raw materials to finished goods. Our years of exposure of product sourcing enables us to offer customers with innovative products, excellent quality and timely deliveries at very competitive prices. We believe in long term business relationship and that has led us to build alliances with our buyers and suppliers.

**“To Become the First Choice when
it comes to choosing A Textile
Products Sourcing Partner”**

VISION

CORE VALUES

1. Ethics
2. Teamwork
3. Innovation
4. Responsibility
5. Goal Oriented
6. Trustworthiness
7. Customer Satisfaction

SERVICES

Best Source/Partner Finding

Identifying the best source of reliable textile producers and manufacturers to suit the customers' specific and tailor cut requirements.

Negotiations

Negotiate and finalize the terms of contract with rationality on behalf of Buyer and Seller.

Creative Design Lead

We have an in house CAD CAM design studio to create designs according to the latest and modern themes and trends, we also produce custom designs with inspirations and story/mood boards provided by our customers design and sales teams.

Inspection

Random in-line and final inspection of goods prior to shipments.

SERVICES

Product Development & Production Planning Management

Innovative and cost effective product development and monitoring product to ensure all the desired contracted specifications are met at globally acclaimed quality testing protocols.

Shipping Coordination

Customers are constantly updated on the progress of their shipments. Documentation is monitored as per buyers' instructions.

Vendor Performance Evaluation Updates

We analyze the performance of partner mills against key performance indicators, bench mark like Price, Innovation, Lead times, Quality Of Products, Logistics Support etc. and share the outcome with the customers and partner mills to pursue a continued effort for excellence and improvement.

QUALITY POLICY

We perceive quality as adherence to product performance protocols as expected by our valued customers. We achieve this by establishing quality control checks and balances at each phase of production and a final inspection check at the time when the consignment is ready.

Our independent quality assurance team actively controls and assures quality at every stage of the process, commencing at sourcing quality raw materials right through to our final checks at dispatch to guarantee you of a quality product. This includes both in-line and off-line quality assurance.

Detailed visual inspections are carried out to check that products comply with specifications and customer instructions. Upon request, laboratory tests are conducted using standard international testing procedures, using local or foreign laboratory. Only goods which have passed the quality control inspections and have been fully approved for dispatch are loaded onto containers

FASHION GARMENTS

We offer a complete range of knitted garments like Men's wear, ladies wear, Kid's wear & Sleep's wear. Our knitted garments products are in white, dyed and printed. The material of the fabric of 100% cotton or as per customer required specification.

WORKWEAR

Workwear is manufactured in many different materials, all of which are chosen in order to give the clothes the best comfort, durability and breathability for different work situations.

A fabric of 100% cotton achieves some very special properties because it is a pure natural material. Cotton is soft and very comfortable to wear. It is washable at up to 95 degrees C. Workwear made from pure cotton is a must for employees that work near embers.

SPORTSWEAR

Sportswear is focused on wearer's comfort and performance. Their requirements for moisture management, elongation and recovery are largely controlled by the use of speciality fibres and yarns, with softener being used only to enhance or supplement the effects. Moisture management is the wicking away of liquid moisture or sweat from the surface of skin followed by evaporation, to keep the wearer feeling dry.
